SOURCE

1. There is a subterranean ammunition depot located about five kilometers south of Opole (5040N/1757E) in a wooded area about one kilometer south of the village of Winau.
2. This storage depot was constructed in 1949. The construction workers frequented the local village inn and it soon became common knowledge that they were engaged in working on an underground storage area for ammunition.
3. Nothing can be seen of this storage depot because of the density of the woods. The storage area could presumably be as large as a rectangle of 600 meters by 600 meters. It is enclosed by a wire fence which is presumably electrically wired as there have been frequent stories since 1950 of stray dogs and cats found dead at the base of the fence.

Enclosure: Overlay from Germany 1:100,000, Sheet S-12, Oppeln (Opole).  
Approximate location of depot. (Army, Air).
